ABOUT US

Welcome to RAISE MANUFACTURING, a company with a strong foundation built on seven years of experience in mechanical and electrical engineering works. we have expertise in HVAC (heating, ventilation, and air conditioning) categories.

Over the years, we have dedicated ourselves to continuous improvement and growth by participating in various training workshops. This commitment to learning has allowed us to collaborate with both local and international companies in the HVAC industry, earning recognition certificates for our work.

we are excited to introduce additional characteristics and features to our services. One of our new focuses is on becoming a leading industrial equipment manufacturing company. With our proven track record and dedication to excellence, we are confident in our ability to deliver top-notch solutions for all your engineering needs.

we are committed to providing innovative and high-quality engineering services that exceed our clients' expectations. Our team of skilled professionals is ready to tackle any challenge and deliver exceptional results. Join us on this exciting journey as we continue to raise the bar in the engineering industry.

OUR SERVICES

HVAC Equipment Supply

HVAC equipment supply services, offering a comprehensive range of top-quality products and expert guidance to meet the diverse needs of clients. With a strong reputation built on seven years of industry experience, RAISE MANUFACTURING is a trusted partner for those seeking reliable and efficient HVAC solutions. From heating systems to ventilation solutions and control systems, our team of knowledgeable experts is dedicated to providing personalized service and tailored recommendations to ensure the success of every project.

HVAC Installation

We offers comprehensive HVAC installation services for residential and commercial properties, providing expert solutions tailored to meet your specific heating, cooling, and ventilation needs. Our team of skilled technicians is trained to handle all types of HVAC systems with precision and efficiency, ensuring a seamless installation process from start to finish. With a focus on quality workmanship and customer satisfaction, we strive to deliver superior results that enhance the comfort and energy efficiency of your space. Trust RAISE MANUFACTURING for reliable and professional HVAC installation services that exceed expectations.

HVAC Service & maintenance

At RAISE Manufacturing, we understand the importance of regular HVAC maintenance to ensure optimal performance and longevity of your heating and cooling systems. Our team of experienced technicians is equipped to provide comprehensive maintenance services, including thorough inspections, cleaning, and tune-ups to keep your HVAC system running smoothly. We take a proactive approach to identify and address any potential issues before they escalate, saving you time and money on costly repairs down the line.

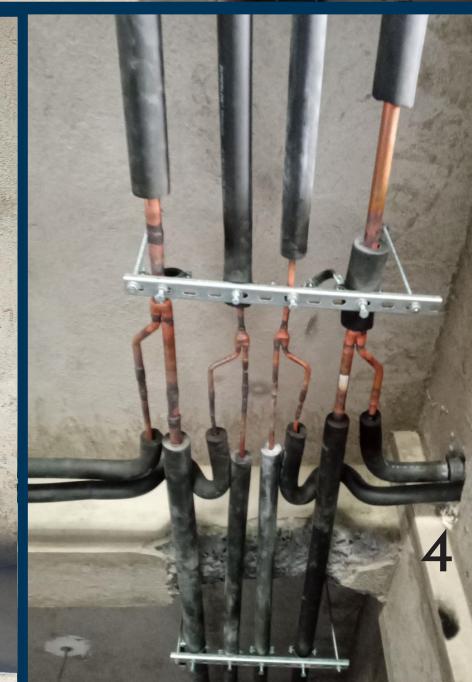

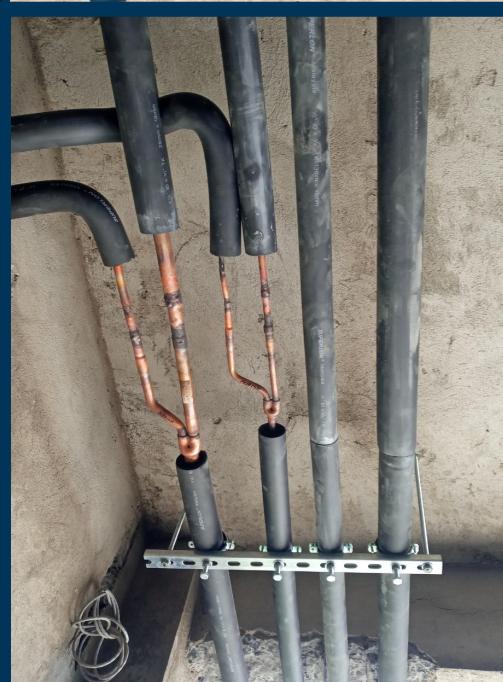

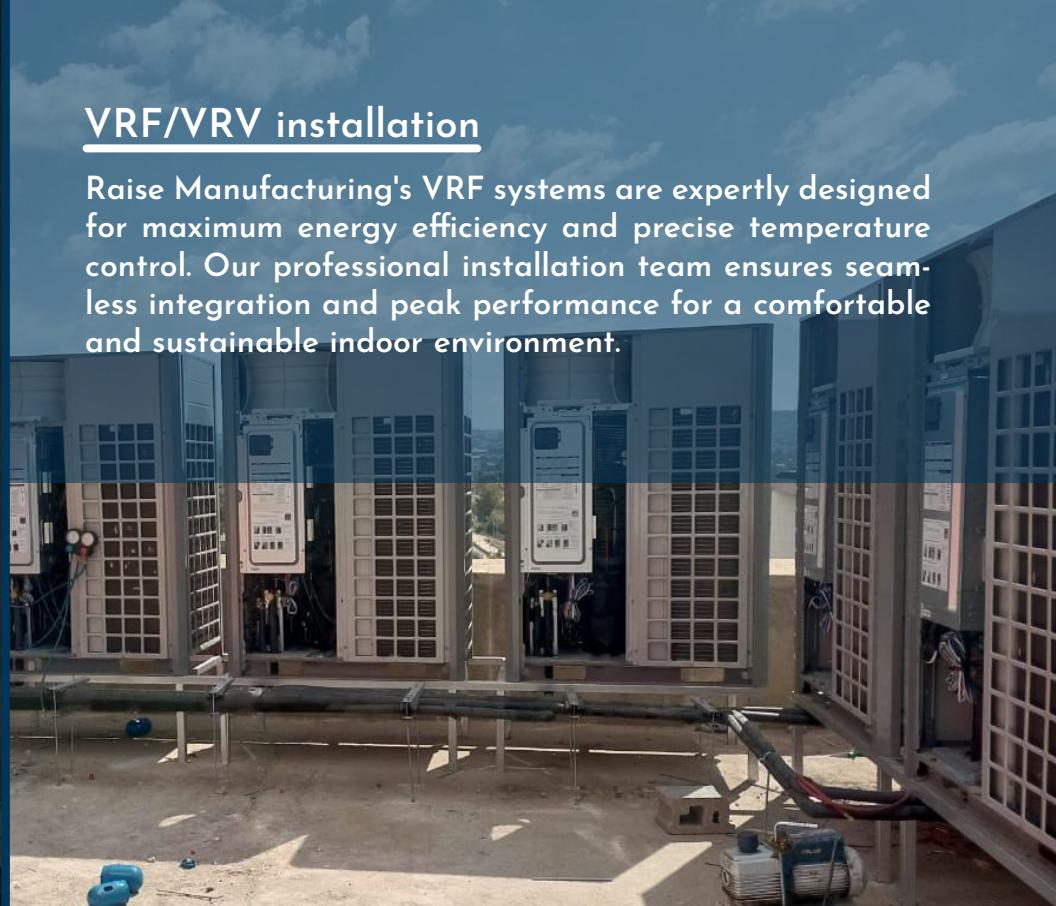

OUR SERVICES INCLUDES:

- Air conditioning equipment
- Air cooling units and spare parts.
- Ducting works and accessories
- Chilled water systems and pumps
- gas, fuel and steam system.
- Cold rooms and kitchen equipment.
- other electro-mechanical equipment and systems.
- Industrial Control panels

VRF/VRV installation

Raise Manufacturing's VRF systems are expertly designed for maximum energy efficiency and precise temperature control. Our professional installation team ensures seamless integration and peak performance for a comfortable and sustainable indoor environment.

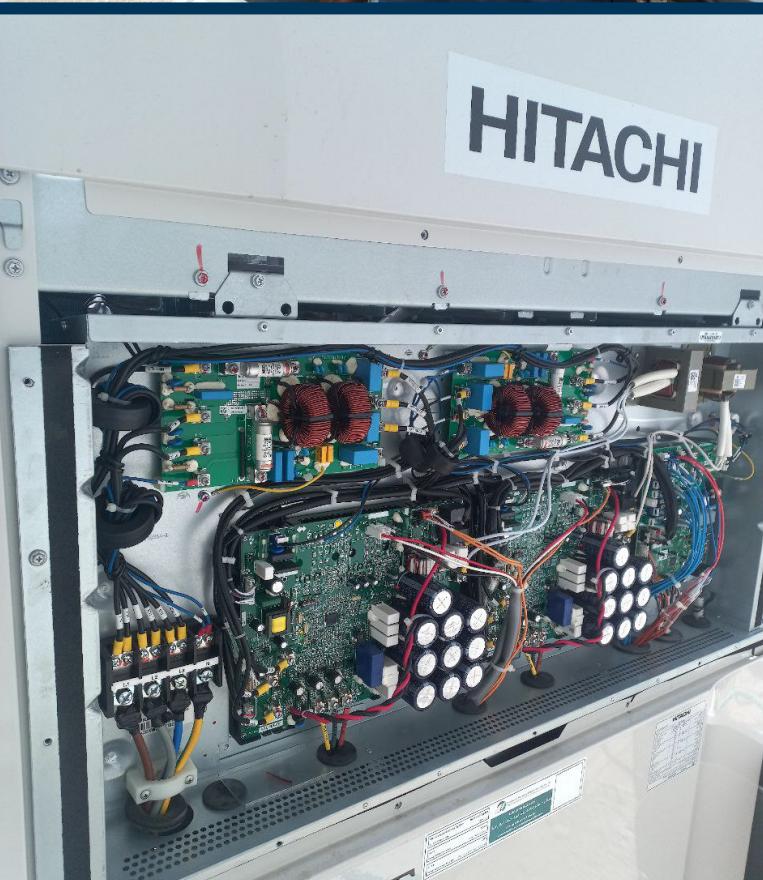

VENTILATION DUCT WORKS

ventilation design and duct works offer unparalleled efficiency and reliability, ensuring optimal air quality and comfort in any environment. With precision-engineered solutions, our systems provide superior airflow and circulation for a healthier and more enjoyable.

Electrical Control Panels

Electrical control panels are essential components in industrial automation systems, providing the interface for monitoring and controlling various electrical devices. These panels are designed to ensure the safe and efficient operation of electrical equipment centralizing the control of power distribution and circuit protection.

rooftop packaged unit installation for dire hotel

Dire Hotel is proud to announce the successful installation of state-of-the-art rooftop packaged units, ensuring optimal comfort for our guests. With energy-efficient technology and expert installation, we are committed to providing a superior guest experience. Experience luxury and sustainability at Dire Hotel with our new rooftop HVAC system.
